Picture Balls

Its amazing folding action
inspires a powerful urge
to play and ensures your
message grabs your
customer's attention.

with
rubberised
finish

Up to 6 pictures plus the
possibility to print your
logo on the ball

The image displays a variety of picture balls, including a silver reflective ball, a white ball with a silver top, a yellow tennis ball, a red basketball, a white baseball with red stitching, a black and white soccer ball, and a blue globe. To the right, there are examples of balls with specific designs: one with a heart and a brain, one with a brain, and one with a pill. A central diagram shows a blue globe ball in its closed state, then opening to reveal a picture of a yellow airplane on the inside of the top half. The bottom half of the globe is perforated with small holes, and the top half is shown being pushed back into place, demonstrating the ball's unique folding action.

Picture Ball / Globe / Heart / Brain / Pill

Size : 70mm sphere (Dia)

Patent # ZI 03266844.9 and # 6,834,451 B1
